

Since foundation in 1997, Semple & McKillop Ltd have completed over 1400 building services engineering and lead consultant commissions. A significant proportion of our work is within the industrial/infrastructure sector with projects ranging in value from £1M to £30M. Testament to our commitment to deliver high quality designs is our extensive client base in the industrial/infrastructure sector and the number of repeat commissions from discerning clients such as Heatons Stores and An Post.

As innovative sustainable engineers, our designs contribute towards the wider policy objectives of sustainability. We are recognised leaders in innovative sustainable design and have in-house qualified and experienced BREEAM Assessors and CIBSE Low Carbon Consultants.

### Significant Project:

In June 2010, we were employed as the M&E Consultant Engineers for a new Meat Processing Plant.

This project is significant in that it is based in Iraq.

It is designed to include 10 chiller rooms, a gut room, a beef floor, a sheep floor, offices, boiler-house with sheep and cattle pens to the rear of the building. €5M
