

## JOB DESCRIPTION

<b>Job Title:</b>	Intermediate Mechanical & Electrical Design Engineers	<b>Reporting To:</b>	Director
<b>Location:</b>	Belfast Office	<b>Date Posted:</b>	April 2021
<b>Job Summary:</b>	Due to continued Company development Semple & McKillop wish to appoint high calibre staff for immediate employment for positions of Intermediate Mechanical & Electrical Design Engineers.		

### Job Detail:

The post of Intermediate Engineer shall suit a highly competent design engineer with excellent interpersonal, communication and team working skills.

The post holder shall work as part of the team structure to perform key duties on projects, and as necessary, provide design and project management support from initial concept planning through to design and commissioning. Responsibilities of the post shall be completed with minimal supervision and include managing others to achieve this aim.

S/He shall be able to demonstrate a track record in developing and maintaining client relationships and providing high quality client centred services.

By working for a progressive Company, the post holder shall have the ability to take a lead on challenging projects with an emphasis on innovation and new techniques in sustainable engineering, building physics and building information modelling.

As a Company dedicated to nurturing talent you will receive a range of professional and on-the-job training covering technical skills development, interpersonal, communication and leadership development. Guidance and support shall be provided to ensure you reach your full potential.

The successful post holder shall have an outgoing personality and a good work ethic coupled with a flexible, 'can do' attitude. S/he shall join our team of like-minded, experienced and enthusiastic professionals.
